OFFICIAL STATEMENT

'REGULATION (EC) No 850/2004 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 29 April 2004 on persistent organic pollutants (Stockholm Convention, "the POPs Regulation")'

This is to confirm the status of Zotefoams products (including the AZOTE® product ranges PLASTAZOTE®, EVAZOTE® and SUPAZOTE as well as the ZOTEK® product ranges ZOTEK® F, ZOTEK® N and ZOTEK® PEBA) are fully compliant with the requirements of European Regulation (EC) 850/2004 above and all amendments to date.

In particular I can advise that at no stage during the manufacturing process used by Zotefoams plc for the manufacture of the above products are any of the substances listed in Annex I of European Regulation (EC) 850/2004, or substances known to contain them, intentionally added to the product formulation.

It is important to note that this statement applies to the foam product as it leaves Zotefoams production facilities. Zotefoams will not accept liability for other materials or processes used in combination with the foam in order to produce a final product

We trust that the above statement is sufficient, however if any further information or clarification is required then please do not hesitate to contact the Technical Support group at the web address above.

Yours sincerely,

Dr. Karl Hewson
Director of Technology and Development
